VIRGINIA'S FRUIT CROP SEEN AS SECTOR

Apples Will Make Average of 70 Per Cent, While Peaches Will Reach 80 Per Cent Average.

WALTER WHATELEY'S FORECAST

State Horticultural Society Meets at University of Virginia, Hears Reports and Listens to Discussions of Up-to-Date Methods.

[Special to The Times-Dispatch.] Charlottesville, Va., July 15.—The summer meeting of the Virginia State Horticultural Society was held to-day at the University of Virginia in conjunction with the Rural Life Conference of the summer school. T. N. Thompson, of Harrisonburg, president of the society, made the opening address, and the meeting was presided over by Professor Charles G. Maphis, director of the summer school.

In speaking of the crop outlook in Virginia, Walter Whateley, secretary of the society, said: "Notwithstanding the severe drought we suffered for two months at the most critical period, giving conditions of both apples and peaches are in good condition, with a large crop of each. I have no reason for changing my estimate made early in June of an average of 70 per cent for apples and 80 per cent for peaches in the commercial areas. Many orchards have as much or more fruit than the trees can bear of apples, and such trees should be pruned without delay, as with a large crop throughout the country only first-class apples should be put on the market."

The fruit crop report issued by the government, giving conditions of the apple crop up to July 1, shows a general decline in prospects since June 1 of 5 per cent in Virginia and 9.5 for the United States. This may be accounted for in part, said Mr. Whateley, by the June drought. It also shows that the crop in Virginia is practically 15 per cent less than it was two years ago, and of the total crop, nearly 5 per cent less than at that time.

Canoe's Record Crop.

Canada has the best crop of apples in her history, said Mr. Whateley. Abnormally late frosts have been clearing out the European apple crops, which would indicate that there will be a heavy demand for export apples.

The peach crop is very short in the New England States, Texas and Tennessee, and almost a total failure in Canada, said Mr. Whateley. There are good crops in several States, however, making the average for the country of 47, as against a ten-year average of 52.

Other speakers at the morning session were two representatives of the United States Department of Agriculture—E. H. Bissell, of the Bureau of Entomology, and C. E. Bassett, of the office of markets, who told his hearers how to market the apple crop.

At the afternoon session there was a round table discussion, led by Dr. S. W. Fletcher, of Fishersville, until recently director of the experiment station at Blacksburg, Va.

Is summer pruning in Virginia practicable, under what conditions does it pay to thin apples? Does the present outlook for peach growing justify increased planting in Virginia? These were the questions discussed by the growers present.

Professor C. C. Starcher, of Blacksburg, assistant horticulturist, delivered an address on peach growing, packing and marketing.

Governor Stuart, who was prevented from attending the meeting, sent as his representative Captain W. M. Baker, of Charlottesville, who is in charge for Virginia at the Panama Exposition.

HOPE TO SAVE NEGRO FROM DEATH ON GALLOWS

Effort Now Getting Under Way to Have Sentence Commuted to Life Imprisonment.

[Special to The Times-Dispatch.] Blacksburg, Va., July 15.—Alky Stokes, sometimes called Judge Manu Stuart, who was recently recaptured by the State, has been sentenced by Judge R. G. Southall to be hanged on September 25, at Nottoway Courthouse. The friends of Stokes have retained W. Monroe Gravitt, of this place, to present his case to Governor Stuart, seeking commutation of his sentence, and in due time a petition will be presented to the Governor.

At the time of the conviction Judge Southall declined to grant Stokes a new trial, but expressed his willingness to intervene with the Governor, but before this could be done Stokes made his escape. Judge Mullen recently has communicated with Attorney Gravitt, and offered to do what he could to secure commutation of the sentence.
